Experience water

Water is an adventure of the skin and senses.
From the sparkling tumble of a mountain
stream to a hot pool's immersive promise,
water has the power to lift our mood and
transform our state of mind.

Icons Menu

To help you to identify important product features, we have placed icons beside each product. When you're browsing through the brochure, simply come back to this page and refer to each icon meaning.

ALL PRESSURE DESIGN

Suitable for all water pressure installations (mains, unequal and equal low) above 35kPa.

AURAJET

20% more spray force and twice the amount of water on your skin*
*compared to a conventional 9L/min shower

FLEXIBLE RAIL INSTALLATION

Adjustable mounting bracket(s) for easy retrofit to existing installation holes.

EASY CHANGE HANDSET

Simply unscrew your old handset and screw on your new Methven handset.

MAINS PRESSURE DESIGN

Suitable for mains water pressure installations above 150kPa.

SATINJET

Colliding twin jets produce over 300,000 droplets of water per second for the ultimate shower experience

DZR BRASS

Dezincification Resistant (DZR) brass bodies last longer and help maintain water quality.

SWIVEL SPOUT

Smooth, elegant and simple to use, our swivel spouts give you 360° control of your water flow.

LOW FLOW

Save water without compromising your experience.

VJET

Variable spray functions allowing you to set to your preference - move from firm to gentle and everything in between using a smooth slider

HEIGHT ADJUSTABLE ARM

Hi-rise arm for the perfect shower position.

DUAL SPRAY

Ideal for those harder to reach areas, for washing vegetables or cleaning plates, pots and pans.

WATER EFFICIENT

Water flow rate is optimised to be water efficient without compromising the luxurious spray performance.

AIRSTREAM

A refreshing combination of air and water that delivers a rain-like experience to your shower

EASY DIY INSTALLATION

A simple installation you can do yourself.

PULL OUT/DOWN TAP

An extendable pull out or pull down hose for spray flexibility and better reach.

FASTFLOW II

Unrivalled performance on unequal pressure installations

CONTROL WATER DIRECTION

The directional aerator includes a built-in swivel that enables you to manually adjust the direction of your water and minimise splash back. (Perfect for taps that sit directly over the sinkhole).

LEAD FREE

Tapware constructed from lead free brass.

IMPORTANT: KNOW YOUR WATER PRESSURE.

When choosing your showers and tapware it is important to know what water pressure your home has. New Zealand homes have three different types:

- Mains
- Unequal
- Equal Low

While most Methven products are designed to operate on all pressure installations, some products require mains pressure to operate effectively.

1. HOW TO CHECK YOUR WATER PRESSURE:

If you have...

• Electric Water Heaters (Hot Water Cylinders)

Check the label on cylinder, and look for the words mains pressure or low pressure. Low pressure means you have Unequal or Equal Low pressure.

• Gas Water Heaters & Heat Pump Hot Water Heaters

You will have mains pressure.

• Solar Water Heaters & Tank Water Supply

These can vary considerably, so check with your plumber.

Again, if you're unsure ask your plumber.

2. LOOK FOR THE ICON THAT CORRESPONDS TO YOUR PRESSURE:

The operating pressure on each product is clearly labelled using the following icons:

MAINS PRESSURE.
Operates on mains pressure installations above 150kPa.

ALL PRESSURE.
Operates on all pressure installations above 35kPa; this is mains or unequal.

Making magic with water since 1886

At Methven we're committed to protecting the planet and reducing our environmental impact to help conserve the Earth's natural resources. Water is the Earth's most precious commodity.

Our love of water began the day George Methven began producing brass and iron hardware in Dunedin, back in 1886.

Ever since, we've been captivated by its power to transform; to change our moods, lift our spirits, to make us feel refreshed and renewed.

It's a passion that has inspired generations of Methven engineers and designers in a quest to create the ultimate experience of water.

Today, we offer a range of exceptional water experiences that all share one vision.

The ability to create a treat for the senses.

Guaranteed quality

We're proud to stand by each and every one of our products with an industry leading warranty.

We guarantee quality with our lifetime warranty on all showers, 20-years on tapware and 10-years on accessories. The reason we can provide this is simple; we manage the design and engineering of our products, so that we have control over the process from start to finish. We constantly push for perfection.

With over 135 years' experience our team of highly trained designers and engineers, have perfected our products to always deliver to the highest standard.

The quality of Methven products is second to none so you can purchase with confidence.

Your bathroom, the choice to relax or revitalise

Your bathroom plays a vital role in your day. It invigorates you in the morning and relaxes you in the evening. So when you take on a bathroom project, be sure to consider the things that are most important to you with the help of this quick guide.

01.

DECIDE WHAT TYPE OF BATHROOM YOU NEED

When planning your new bathroom it's important to begin by thinking about how it will be used and by whom. People's requirements can often be very different:

Family bathroom: In a family bathroom you want to create a space that caters for growing families.

Ensuite: An ensuite should be a sanctuary that's both luxurious and practical – a space where you can escape and relax.

Guest bathroom: Here you want to create a space that is both welcoming and pampering.

Rental property: Reliability and durability are the most important when selecting products for a rental property.

02.

MAKE A LIST

Before planning your layout think carefully about what you like and dislike about your current bathroom. Make a list and prioritise which features you'd most like to see in your new bathroom. Maybe it's an oversize walk-in shower, a large vanity with two sinks, a separate enclosure for your toilet, or a large free-standing bath.

03.

GET INSPIRATION

Gather inspiration of bathrooms you like from magazines and the internet. This could help when you're planning your layout.

04.

PLANNING YOUR LAYOUT

Your new bathroom layout can make all the difference, so be sure to plan carefully:

Bath tub – These days many people are trading or downsizing their bath for a luxurious walk-in shower. This can be a great option, although you may want to consider retaining at least one bath in the house – it can add to the value of your property.

Vanity – The vanity plays an integral role in your bathroom – choose a spot that won't interfere with your traffic, and make sure there's room above for mirror and wall cabinets.

Shower – Make the best use of space in small bathrooms by going for an open walk-in shower that doesn't need a curtain or door.

Plumbing Practicalities – Plumbing is a major cost in any bathroom project. In a renovation, try to keep costs down by limiting the need for adjusting your existing plumbing set-up.

SOME HANDY TIPS

Whether it's a new home build, renovation or a quick refresh, Methven has you covered with showers and tapware to suit any bathroom.

QUICK BATHROOM REFRESH

This can be as easy as changing your shower, either the shower handset or the whole rail shower. It's not difficult to do – either by screwing in a new handset on to your existing hose, or retro-fitting a new rail shower with adjustable mounting brackets so there's no need to drill additional holes. You'll be surprised at how a little added shower luxury can improve your day.

NEW BUILDS AND RENOVATIONS

When you're ready to choose bathroom fittings, start with the shower first. Why? Because the shower is an important space. You spend a lot of time in it and for many it's the only time of day when you get some 'me' time.

Your shower experiences

Your shower should be a highlight of your day, transforming body and mind. But everyone has their own idea of the perfect shower. That's why at Methven we've spent a huge amount of time researching people's preferences, and creating innovations that turn your shower time into an amazing experience, every time.

VJet®

A SHOWER TO SUIT YOUR EVER-CHANGING NEEDS.

Its smooth handset slider allows you to activate a seamless spray transition - from firm, to gentle, and everything in between.

Aurajet®

OUR DESIGN LOOKS AMAZING AND FEELS DIVINE.

20% more spray force and twice the amount of water on your skin than a conventional shower*.

* Compared to a Methven Conventional Shower at 9L per minute.

Satinjet®

A SENSATION ONLY YOUR SKIN CAN TRULY UNDERSTAND.

An amazing full-body shower sensation. Satinjet turns an everyday ritual into an experience like no other.

Airstream

FEELS LIKE YOUR OWN PERSONAL RAIN SHOWER.

Airstream technology mixes air with water to create a refreshing, rain-like more voluminous shower experience.

Which shower?

There's an abundance of different shower types to choose from across the Methven range.

Here's a quick guide to ensure you choose the right shower for your bathroom environment:

RAIL SHOWER

Offers great flexibility – height adjustability so the smallest or tallest users can enjoy a great shower, plus a handset that can be picked up for direct body showering. Perfect for the family bathroom.

SHOWER SYSTEM

The ultimate shower for those who want the best of both worlds. Enjoy the flexibility of a rail shower with the added luxury of an overhead shower. Great for ensembles.

OVERHEAD SHOWER

For those who want an elegant yet minimalist look and a fully immersive experience. Overhead Showers are the ideal choice.

WALL SHOWER

Compact, durable and easy to clean. A popular choice for confined areas, commercial spaces and rental properties.

Satinjet®

Experience the sensation that is Satinjet

A sensation for both mind and body.

Satinjet uses unique twin-jet technology to create optimum water droplet size and pressure. Delivering 300,000 of these droplets per second, Satinjet creates a truly immersive, full body shower experience.

A range of Satinjet showers is available to suit your needs and desires, ensuring the perfect shower experience every day.

Satinjet. Truly sensational.

**300,000
DROPLETS
PER SECOND**

NEW Waipori MK2

Distinctive,
geometric design.

The Waipori collection
takes traditional forms and
subtly alters them with
a contemporary twist.

SATINJET

A full-body shower experience,
like no other. Satinjet's colliding
twin jets produce over 300,000
droplets of water per second for
the ultimate shower experience.

OVERHEAD ULTRA WIDE COVERAGE

A full-bodied spray for all-over warmth
and maximum body contact.

WIDE COVERAGE

A wider, well-balanced spray for
superior body coverage.

Our tapware and mixer innovation

At Methven we like to make things better.
So we spend a great deal of time and effort on research
and development to improve our products.

Rob Bolus

Product Excellence
Engineering Manager
38 years of service

Mixing occurs outside of the cartridge for improved temperature control and adjustment.

Filter basket to prevent blockage of jets

Venturi system uses high pressure cold water through low pressure hot water to enhance flow

Simple bypass that allows higher flow cold shower.

Enlarged hot waterways promote higher flow.

Range of jets supplied for optimum installation.

Fastflow® II

Developed by Methven in New Zealand, Fastflow is the original standard for delivering constant flow and temperature with unequal pressure. Re-engineered from the ground up, Fastflow II now delivers superior showering performance.

Satinjet® SHOWERS

Making life easy with EasySwitch

Both our Waipori MK2 and Maku MK2 now feature the innovative EasySwitch® in-wall body system, giving you the freedom to personalise your bathroom with ease.

With EasySwitch®, the trim kit, colour finish and design can be interchanged before or after installation. This means fewer delays, no costly rework, and the flexibility to refresh your bathroom's style whenever you choose.

Koha MK2

At the heart of the Koha shower experience lies Satinjet technology, including a massage function to deliver a more powerful spray.

Practical and elegantly beautiful, Koha has the versatility to suit any home.

SATINJET

A full-body shower experience, like no other. Satinjet's colliding twin jets produce over 300,000 droplets of water per second for the ultimate shower experience.

VJet®

Experience Control with Methven VJet

Change is good. Controlling it is even better.

We created VJet technology so you can change your shower experience to suit your needs. Using a smooth slider control you can adjust the spray seamlessly, from firm and invigorating to a gentle enveloping warmth, or anywhere in between.

Then there's the unique quality of the spray itself. VJet uses cleverly designed hidden channels to create spirals of water, released precisely by individual nozzles across the shower head.

The result is always a delight for the senses, whether you choose a shower experience that's revitalising, relaxing or something entirely your invention.

VJet. It's your shower, your way.

Aurajet®

Experience the unforgettable feeling of Aurajet

It looks and feels out of this world.

The futuristic design of Aurajet signals the promise of something extraordinary. And, from the moment the first droplets touch your skin, it delivers.

Hidden nozzles generate individual jets of water that collide against precisely angled surfaces within Aurajet's open, seemingly floating, shower head.

The result is a stunning fan of luxuriously dense droplets, delivering 20% more spray force than a conventional shower, and twice the amount of water contact with your skin*. Its enveloping warmth and heavenly feeling has to be felt to be believed.

Aurajet. Experience it to believe it.

**2x MORE
COVERAGE
20% MORE
SPRAY FORCE**

* Compared to a Methven Conventional Shower at gL per minute.

Aurajet® SHOWERS

Aio

The shower head's sculptural halo form signals Aio's advanced and contemporary design. Aio needs to be felt to truly believe the amazing water experience.

AURAJET

A stunning fan of luxuriously dense droplets that deliver a highly efficient shower with 20% more spray force and twice the amount of water on your skin*.

* Compared to a Methven Conventional Shower at 9L per minute.

Your kitchen, the heart of your home

You spend more active time in the kitchen than any other room in the house, and your kitchen tapware is at the heart of this - so it's important to select the tapware that's right for you.

THINK ABOUT HOW YOU USE YOUR KITCHEN TAPWARE:

Whether you're looking to buy kitchen tapware as part of a renovation, new build or simply because your current mixer is in need of replacement, it's important to think about the everyday tasks you use it for. For example, food preparation, washing dishes, rinsing dishes, making drinks, washing hands or even watering your plants. Considering all the facts will help you choose the right combination of features.

Choosing the right kitchen tap:

01.

CONSIDER THE MOUNTING TYPE – DO YOU WANT IT DECK (BENCH) OR WALL MOUNTED:

Deck mounted – Is a more contemporary look and gives you greater flexibility for kitchen sink placement.

Wall mounted – Gives a more classic look and is more cost effective if you're replacing an old wall-mounted kitchen tap.

02.

CONSIDER HOW YOU WANT TO CONTROL YOUR KITCHEN TAP:

Mixers – Contemporary look and simple single handed operation.

Also, if you prefer a mixer do you want the handle positioned on the side, front or top? Methven have deck mounted mixers that allow you to position the handle at either the side, front or top.

Separate handles – The classic look, allowing you to control the cold and hot water individually.

03.

CONSIDER YOUR SPOUT HEIGHT – HIGH VS LOW:

High spout – Gives a more contemporary look and makes filling large pots much easier.

Low spout – Is great when space is at a premium, such as when you have a cabinet or window above the sink.

04.

WHAT ABOUT A PULL-OUT SPOUT:

This is a feature where the spout head pulls out towards the sink on a flexible hose, giving increased flexibility and manoeuvrability – very handy for cleaning vegetables, rinsing pots and pans or rinsing down the sink.

TAPWARE

Sink Mixers

Single-lever mixers with a taller spout to suit both kitchen and laundry sinks. With the convenience of easy one-handed temperature and flow control.

.....
LEAD FREE TAPWARE

Tapware constructed from lead free brass.
